

Simtora Technologies, Inc.

International Operations Supplement

Applying the IT, Compliance, Finance, Procurement and Facilities Manuals in Pakistan, Germany, France, Australia, the United Kingdom and the United States Headquarters

Document ID	SIM-GLB-001
Version	1.0
Owner	General Counsel, with the CFO, the Head of IT / CISO, the Head of Procurement and the Head of Facilities as co-owners of their Parts
Approved by	Chief Executive Officer
Effective date	October 5, 2026
Review cycle	Annually in January, and whenever a law, a Company location or a hosting region changes
Applies to	All directors, officers and employees of Simtora Technologies, Inc. and its subsidiaries (Simtora Technologies (Pvt.) Limited, Simtora Technologies GmbH, Simtora Technologies SAS, Simtora Technologies Pty Ltd and Simtora Technologies UK Limited), and contractors acting for them
Related manuals	IT Policy Manual (SIM-IT-001); Code of Ethics and Compliance Manual (SIM-CMP-001); Finance and Accounting Manual (SIM-FIN-001); Procurement Policy Manual (SIM-PRC-001); Facilities and Office Administration Manual (SIM-FAC-001); HR Policy Manual (SIM-HR-001); Global People Supplement (SIM-HR-002); Country HR Manuals (SIM-HR-101 to SIM-HR-105); Company Overview (SIM-OVR-001)

Contents

Introduction

- Purpose and scope; order of precedence; roles

Part 1 – Data, Technology and Security (IT)

- 1.1 Hosting Regions and Data Location
- 1.2 Cross-Border Access to Customer and Employee Data
- 1.3 Export-Controlled Technology and Source Code
- 1.4 Network, Connectivity and Local Telecommunications Rules
- 1.5 Devices, Customs and Travel with Technology
- 1.6 Incident Response and Breach-Notification Clocks
- 1.7 EU and UK Cyber and AI Regulation

Part 2 – Compliance, Privacy and Legal (Compliance)

- 2.1 Corporate Governance of the Subsidiaries
- 2.2 Anti-Bribery and Anti-Corruption by Country
- 2.3 Privacy and Data Protection Regimes
- 2.4 Whistleblowing and the Ethics Line
- 2.5 Sanctions, Export Controls and Trade
- 2.6 Competition, Supply Chain and Human Rights
- 2.7 Government Inquiries, Raids and Inspections
- 2.8 Records, Legal Holds and Language

Part 3 – Finance, Tax and Intercompany (Finance)

- 3.1 Entities, Accounting and Close
- 3.2 Currency, Banking and Treasury
- 3.3 Spend Authority and Signing in the Subsidiaries
- 3.4 Intercompany Arrangements, Transfer Pricing and IP Ownership
- 3.5 Indirect Taxes and Invoicing
- 3.6 Payroll and Employer Taxes
- 3.7 Expenses, Cards and Travel Finance
- 3.8 Statutory Filings and Audits
- 3.9 R&D Tax Incentives and Grants
- 3.10 Insurance

Part 4 – Procurement (Procurement)

- 4.1 Who Contracts and Local Vendor Onboarding

- 4.2 Payment Terms, Late-Payment Laws and Currency
- 4.3 Governing Law, Local Mandatory Law and Dispute Resolution
- 4.4 Data Protection, Contractors and Supply Chain
- 4.5 Imports, Customs and Hardware

Part 5 – Facilities, Safety and Security (Facilities)

- 5.1 Sites, Site Leads and Local Safety Leads
- 5.2 Local Safety Law and Emergency Numbers
- 5.3 Emergency Planning, First Aid and Drills
- 5.4 Workplace Environment
- 5.5 Security, CCTV, Visitors and Badges
- 5.6 Travel Risk Management
- 5.7 Leases, Landlords and Disposal
- 5.8 San Francisco Headquarters Specifics
- 5.9 Site Specifics: Lahore, Berlin, Paris, Sydney, London

Part 6 – Administration of This Supplement

- 6.1 Responsibilities
- 6.2 Exceptions
- 6.3 Approval Matrix
- 6.4 Training

Appendices

- A. Country Quick Reference
- B. Changes This Supplement Makes to the Six Manuals
- C. Glossary
- D. Revision History

Introduction

Purpose and scope

Simtora's six policy manuals were written for a company based in the United States. Since October 5, 2026, Simtora also operates R&D centers in **Lahore, Berlin, Paris, Sydney and London**, in addition to its **San Francisco headquarters** (Company Overview, SIM-OVR-001, Section 6). This Supplement explains how the **IT, Compliance, Finance, Procurement and Facilities manuals apply in each country** and where local law requires something different. The HR manual has its own Global People Supplement (SIM-HR-002) and Country HR Manuals.

Order of precedence

1. **Mandatory law** of the country where the activity takes place (and of the U.S., which applies to Simtora Technologies, Inc. and to U.S.-origin technology wherever it is).
2. **This Supplement** for the topics it covers.
3. **The six manuals**, which apply in every country except where this Supplement or the law says otherwise.

Where the law of two countries conflicts, **Legal decides** and records the decision. Employees do not resolve conflicts of law themselves.

The principle

Same standards, local law. Our standards for security, ethics, financial control, procurement and safety are the same in every country. Local law may add to them, and where local law is stricter, the stricter rule applies. Where a manual refers to U.S. dollars, the local-currency equivalent applies at the Finance monthly rate (3.2).

Roles

Role	Responsibility under this Supplement
General Counsel	Owns this Supplement; retains local counsel in each country; decides conflicts of law; owns Parts 1.3, 2 and the privacy program
CFO	Owns Part 3; approves intercompany pricing, banking and financing
Head of IT / CISO	Owns Part 1; decides hosting regions, access profiles and cross-border controls
Head of Procurement	Owns Part 4
Head of Facilities	Owns Part 5
Country leaders	Act as statutory directors and Site Leads; ensure local compliance; sign only within delegated authority; escalate local legal issues to the General Counsel
Privacy Lead (Group DPO)	Runs the privacy program in the EU, UK, Australia, U.S. and Pakistan; contact <code>privacy@simtora.example</code>
Compliance Officer	Runs the compliance program, the Ethics Line and training; contact <code>compliance@simtora.example</code>
International HR Lead	Applies the Global People Supplement; <code>hr-intl@simtora.example</code>
Local counsel and advisers	Advise on local law; retained by the General Counsel (employment, corporate, tax, data protection)

Part 1 – Data, Technology and Security (IT)

1.1 Hosting Regions and Data Location

Purpose. To keep customer and employee data in the locations customers and the law expect.

Policy.

- Production runs in four **hosting regions: United States, European Union, United Kingdom and Australia**. A customer chooses a region when it signs; the choice is recorded in the contract and in the tenant configuration.
- **Customer content** (Restricted data) stays in the chosen region. It may be accessed or copied outside the region only as 1.2 allows and the contract permits.
- This **replaces the default in SIM-IT-001 2.5** ("Restricted data is hosted in U.S. regions unless a customer contract or an approved review permits otherwise"). The default region for new U.S. customers remains the United States; for customers whose data subjects or contracts are in the EU, UK or Australia, the customer-selected region applies.
- Backups and disaster-recovery copies stay in the same region (or in a second location within the same legal territory) unless the customer contract allows otherwise (SIM-IT-001 7.2 and 7.3).
- **Employee and HR data** is held in the HR system in an approved region; EU and UK employee data is kept in an EU or UK region, with transfers under 2.3.
- New regions, or adding a region to a customer, need approval from the CISO and the General Counsel and a data-protection assessment.
- Pakistan has no hosting region. No customer production environment is hosted in Pakistan.

1.2 Cross-Border Access to Customer and Employee Data

Principle. Being able to see data from another country is a transfer in law. Access is therefore limited, approved and logged.

Rule	Detail
Access profile	Every employee and contractor has an access profile in the identity system that lists the regions and environments they may reach. Profiles are set by role and country and reviewed quarterly (SIM-IT-001 3.5).
Default	

1.3 Export-Controlled Technology and Source Code

- Software, source code and technical data created in the U.S. or by Simtora Technologies, Inc. are subject to the **U.S. Export Administration Regulations (EAR)**, even when they are in another country. Sharing them with the subsidiaries is an **export or re-export** that Legal manages under SIM-CMP-001 3.7.
- Legal keeps an **export classification** (ECCN or EAR99) for each product, including its encryption features, and a **technology control plan** that lists which centers and roles may access which repositories.
- **Restricted parties.** Contractors, customers and partners are screened against U.S., EU, UK and UN restricted-party and sanctions lists, and for end-use. Screening is mandatory for any new customer or partner in Pakistan, and for any customer with ties to a military, nuclear or surveillance end-use.
- **Nationality and residence.** The Company does not restrict access based on nationality for lawful employees, unless Legal advises that a license or a specific control is required for a particular technology. Legal makes that determination, records it and informs HR.
- **EU and UK controls.** The EU Dual-Use Regulation and the UK Export Control Order apply to the Berlin, Paris and London centers; Legal confirms classifications before technology is transferred between the EU, the UK and other countries.
- Code, models and technical data may not be copied to personal devices or non-Company cloud services anywhere (SIM-IT-001 4.1).

1.4 Network, Connectivity and Local Telecommunications Rules

Country	Requirement
Pakistan	The Pakistan Telecommunication Authority (PTA) regulates internet and VPN use. Business connectivity, IP-VPN and any VPN used for corporate traffic must be registered with PTA as required. IT keeps the registration current and uses two independent internet providers with automatic failover (SIM-FAC-001 4.2 and 4.5). Employees do not use unregistered VPN services for Company traffic.
Germany	Telecommunications secrecy applies where private use of Company email is allowed; the Company therefore prohibits private use of the Company email account (SIM-HR-102 8.2). Network monitoring is limited to security logs; the works council (if any) is consulted.
France	Users are informed of monitoring in advance and the CSE is consulted (SIM-HR-103 8.2). Messages marked personal are presumed private.
Australia	Computer surveillance needs 14 days' written notice (NSW Workplace Surveillance Act) (SIM-HR-104 8.2).
United Kingdom	Monitoring follows the ICO's guidance; a data protection impact assessment is required (SIM-HR-105 8.2).
United States	California notice requirements; employee monitoring notice (SIM-HR-001 1.9).

The IT security standards (MFA, device management, zero-trust access, encryption) are identical in all countries. **Local network inspection that decrypts personal traffic is limited** to security needs and is disclosed in the monitoring notice.

1.5 Devices, Customs and Travel with Technology

- **Standard devices** are the same worldwide. IT ships laptops to the center or to the employee's home through customs brokers. Hardware importing is a Procurement and Facilities matter (4.5).
- **Pakistan:** import duties and clearance for hardware are planned and budgeted; devices carry asset tags; IT staging happens in Lahore under SIM-FAC-001 5.2.

- **Loaner devices.** For travel to **high-risk destinations** (set by the CISO and Facilities, 5.6), employees use clean loaner devices with no stored credentials or customer data; they return them to IT on arrival for inspection.
- **Border searches.** Employees must not give passwords to officials. If an official demands access to a device, the employee asks to contact Legal, complies with lawful orders, and reports to IT Security and Legal at once (SIM-CMP-001 6.6).
- **No devices to sanctioned countries** under any circumstances (SIM-IT-001 4.6).
- **End of life.** Disposal follows SIM-IT-001 2.4 and SIM-FAC-001 5.5 with certified recyclers in each country (the EU and UK waste electrical and electronic equipment (WEEE) rules apply).

1.6 Incident Response and Breach-Notification Clocks

Incident management follows SIM-IT-001 7.4. Legal tracks every notification clock **from the moment of awareness** (SIM-CMP-001 4.1).

Jurisdiction	Regulator / who is notified	Clock
EU (GDPR)	Supervisory authority of the establishment (Berlin: Berlin DPA; Paris: CNIL); affected individuals if high risk	72 hours to the authority; customers (controllers) without undue delay (contract: typically 24–72 hours)
United Kingdom (UK GDPR)	ICO; individuals if high risk	72 hours
Australia (Notifiable Data Breaches scheme)	OAIC and affected individuals	Assess within 30 days ; notify as soon as practicable when serious harm is likely
United States	State attorneys general and individuals under state laws (California and others); sector rules; customers by contract	State deadlines vary (some as short as 30 days); contract commonly 72 hours
Pakistan		

A single incident can trigger several clocks. The **General Counsel decides** on notification (SIM-CMP-001 4.1), with the CISO. Incident severity levels, communication and the 10-business-day review remain as in SIM-IT-001 7.4.

1.7 EU and UK Cyber and AI Regulation

- **NIS2 and similar.** Legal and the CISO assess each year whether Simtora is within the EU Network and Information Security Directive (NIS2) as a provider of cloud computing or managed services, and as implemented in Germany and France; and whether UK cyber legislation applies. Where it applies, the Company registers, adopts the required measures and reports incidents. The existing SIM-IT-001 controls (risk management, supply chain, incident reporting, encryption) are mapped to the requirements.
- **EU AI Act.** The AI Review Board classifies each Simtora Assist feature, and each internal AI use, against the Act's categories (prohibited, high-risk, limited-risk transparency and general-purpose AI obligations) on the dates the Act sets. The Act's **AI literacy** duty applies to staff who operate or use AI systems: it is met through the AI training in SIM-CMP-001 4.3 and 6.2. Transparency notices (for example, telling users they are interacting with AI) are included in the product design.
- **Other jurisdictions.** The UK relies on regulator guidance; Australia has voluntary AI safety guardrails; Pakistan is developing its national AI policy. Legal tracks all of these. The Company applies SIM-CMP-001 4.3 uniformly.
- **Employment AI.** AI tools used for hiring or employee management are reviewed by the AI Review Board and HR before use, because EU and other laws treat them as high-risk (SIM-HR-002 1.12).

Part 2 – Compliance, Privacy and Legal (Compliance)

2.1 Corporate Governance of the Subsidiaries

- Each subsidiary is a separate legal person with its own **statutory directors/officers**, shareholder (Simtora Technologies, Inc.), books and records. Country leaders hold the statutory role (Company Overview, 6.3 and 6.5).
- **Corporate Secretary** (in Legal) maintains for each entity: registered office and agents, statutory registers (members, directors, beneficial ownership), board or shareholder minutes, annual filings, authorized signatories and powers of attorney, and the annual compliance calendar.
- **Directors' duties.** Directors/officers act in the interests of their entity and comply with local directors' duties and insolvency laws (for example, the German managing director's duty to file for insolvency within set periods; UK director duties under the Companies Act 2006; Australian director duties under the Corporations Act). Legal briefs each new director.
- **Decisions reserved to the parent.** Budget, hiring plans, borrowing, guarantees, property leases, new subsidiaries, changes to structure, and any transaction above the thresholds in SIM-FIN-001 1.2 need the approvals there. A subsidiary board does not exceed those limits.
- **Powers of attorney** and bank-signing authorities need General Counsel approval (3.3).
- **Local board or shareholder resolutions** are drafted by Legal; local-language versions are provided where required.

2.2 Anti-Bribery and Anti-Corruption by Country

SIM-CMP-001 3.3 and 3.4 apply everywhere. The strictest applicable law governs. In particular:

Country	Main law and special points
United States	FCPA (foreign officials; accounting provisions); domestic bribery laws
United Kingdom	Bribery Act 2010 : bribing, being bribed, bribing foreign officials, and the corporate offense of failing to prevent bribery (defense: "adequate procedures"). No facilitation-payment exception. The Act applies to Simtora UK and to any Simtora entity that carries on business in the UK.
Germany	Criminal Code §§ 299 ff. (commercial bribery in business dealings) and §§ 331–335 (public officials); strict rules on benefits to public officials
France	Sapin II (anti-corruption compliance duty for larger groups, which Simtora meets voluntarily); Criminal Code offenses of corruption and influence peddling, including private-sector corruption
Australia	Criminal Code Act 1995 (foreign bribery) and the corporate offense of failing to prevent foreign bribery (in force since 2024); State laws for domestic bribery and secret commissions
Pakistan	Prevention of Corruption Act 1947, Pakistan Penal Code and National Accountability Ordinance 1999; public-sector customers and "public servants" are defined broadly (including state-owned entities, universities and hospitals)

Standards that apply in all countries:

- **No facilitation payments**, in any country (SIM-CMP-001 3.3).
- **Gifts and hospitality**: US \$50 per source per year (local currency equivalent) without approval; the approval tiers in SIM-CMP-001 3.4 apply by USD equivalent. For **public officials**, any value needs Compliance approval beforehand; in **Germany and Pakistan**, Compliance generally declines gifts to public officials, and in **France**, hospitality for public officials is limited to modest meals directly linked to business.
- **Government customers**: gifts, hospitality and travel for officials need Compliance pre-approval (SIM-CMP-001 3.9). Public-sector tender rules in each country (including debarment lists) are checked by Legal before bidding.
- **Intermediaries**. Agents, resellers and consultants who deal with officials receive enhanced due diligence (SIM-CMP-001 6.5), written contracts and audit rights. No

success fees to intermediaries without General Counsel approval.

- **Political and charitable donations:** none in any country without CEO and General Counsel approval (SIM-CMP-001 3.8); in the UK, political donations may also need shareholder authorization.
- **Training:** anti-corruption training within 60 days for staff in Sales, Partnerships, Procurement, Finance and executives in every country, annually.

2.3 Privacy and Data Protection Regimes

The privacy program (SIM-CMP-001 4.1) runs on the **highest common standard**, with local additions.

Location	Main law	Key local points
United States	CCPA/CPRA (California) and other state comprehensive privacy laws; sector laws	Notice at collection; rights to know, delete, correct; response within 45 days (extendable); applies to employee and applicant data in California
European Union (Germany, France)	GDPR ; Germany: Federal Data Protection Act (BDSG); France: Data Protection Act and CNIL guidance	Lawful basis; records of processing; data protection impact assessments; DPO; data subject rights within one month ; breach notice in 72 hours; limits on monitoring and employee consent
United Kingdom	UK GDPR and Data Protection Act 2018; ICO	Same structure as GDPR; ICO data protection fee paid by the Company; subject access within one month
Australia	Privacy Act 1988 (APPs); Notifiable Data Breaches scheme; NSW Workplace Surveillance Act	APP 8: the Company remains accountable for disclosures overseas; breach assessment within 30 days; the employee-records exemption is not relied on for policy
Pakistan		

Operating rules:

- **Roles.** For customer content, Simtora is generally the **processor/service provider**; for its own employees, prospects and website visitors, it is the **controller/business**. Each customer contract has a data processing agreement (DPA) (SIM-PRC-001 5.2).
- **Group DPO.** The Privacy Lead acts as Group Data Protection Officer for the EU and UK. The Company does not need an EU or UK representative because it has establishments in both. Contact: `privacy@simtora.example` .
- **Records of processing, DPIAs and privacy by design** are kept for EU/UK processing; the Privacy Lead reviews high-risk processing (including Assist AI features and employee monitoring) (SIM-CMP-001 4.1, 4.3).
- **International transfers.** Intra-group transfers use the **intra-group data-transfer agreement** that includes the EU Standard Contractual Clauses (2021) and the UK Addendum/International Data Transfer Agreement. Simtora Technologies, Inc. also maintains certification under the **EU–U.S. Data Privacy Framework** and the UK Extension (the "UK–U.S. data bridge") where eligible. Transfers to vendors in other countries need a transfer mechanism listed in the DPA (SIM-PRC-001 5.2). Australia's APP 8 and Pakistan's contract-based rules are met through the same agreements. Transfer-impact assessments are kept for transfers to the U.S., Pakistan and any other third country.
- **Data subject requests.** `privacy@simtora.example` handles requests worldwide. The internal target is **30 days** for EU, UK and Australian requests, and 45 days for U.S. requests (SIM-CMP-001 4.1 allows up to 45 days where law permits). Acknowledgment within 10 business days.
- **Children.** Simtora products are for business users; no child-directed processing without Legal approval.
- **Marketing.** Consent and opt-out rules differ (GDPR/ePrivacy, UK PECR, Australia's Spam Act and Do Not Call register, CAN-SPAM). Marketing uses the strictest setting by default and follows the country-specific rules the Privacy Lead publishes.

2.4 Whistleblowing and the Ethics Line

The Ethics Line (`ethics@simtora.example` ; anonymous web form) and the Audit Committee (`audit@simtora.example`) are available to everyone, in every country (SIM-CMP-001 Part 2). Local law adds:

Country	Local law	What it adds
United States	Federal and state whistleblower laws (for example, California Labor Code § 1102.5)	Protection against retaliation; no restriction on reporting to government (SIM-CMP-001 2.5)
Germany	Whistleblower Protection Act (HinSchG)	Acknowledge within 7 days ; feedback within 3 months ; external reporting to the Federal Office of Justice; confidentiality
France	Sapin II as amended by the Wasserman Law	Acknowledge within 7 working days ; feedback within 3 months ; reports to the Défenseur des droits; protection for facilitators
United Kingdom	Public Interest Disclosure Act 1998	Protection from detriment and automatic unfair dismissal; prescribed persons
Australia	Corporations Act Part 9.4AAA	Eligible recipients; identity confidentiality; emergency and public interest disclosures
Pakistan	No private-sector whistleblower statute	Company non-retaliation rule applies strictly; reports to regulators are always permitted

The Compliance Officer acknowledges every report within the **shortest applicable period** (the Company standard is 5 business days, which is within every legal limit above) and gives feedback within 3 months (45 days is the investigation target, 90 for complex matters, SIM-CMP-001 2.4). Reports may be made in English; German, French and Urdu translation is provided on request. Investigations in the EU follow the local rules on fair process and data protection (including notice to accused persons, works council or CSE involvement where required).

2.5 Sanctions, Export Controls and Trade

- SIM-CMP-001 3.7 applies. The Company complies with **U.S. (OFAC, BIS), EU, UK, UN and Australian** sanctions, as applicable to each entity and transaction. Where they differ, the strictest applies.
- **Screening** of customers, vendors, partners and (where the law requires) payees is done at onboarding and on list updates (SIM-PRC-001 4.2; SIM-FIN-001 3.1).
- **No business** with comprehensively sanctioned jurisdictions or persons; **no payments** routed through them.
- **Facilitation of U.S. persons.** Non-U.S. subsidiaries may not be used to evade U.S. sanctions; U.S. persons may not approve or support prohibited transactions by subsidiaries.
- **Customs and import/export** are handled by licensed brokers (4.5). Encryption and technology exports follow 1.3.
- **Anti-boycott laws** (U.S.) prohibit complying with certain boycott requests; these requests must be reported to Legal.
- **Anti-money-laundering:** the cash rules in SIM-CMP-001 3.7 and SIM-FIN-001 apply in every country.

2.6 Competition, Supply Chain and Human Rights

- **Competition law** applies everywhere (U.S. antitrust, EU and national competition law in Germany and France, the UK Competition Act 1998 regime, the Australian Competition and Consumer Act, and Pakistan's Competition Act 2010). SIM-CMP-001 3.6 applies; extra care is required for any contact with competitors at trade events in Europe, where fines are large.
- **Modern slavery.** The Company supports the UK Modern Slavery Act (s 54 statements where the turnover threshold applies), Australia's Modern Slavery Act and the EU/German/French supply-chain laws (which have size thresholds that Simtora does not currently meet). Legal reviews the thresholds each January. Suppliers must comply with the Supplier and Partner Standards (SIM-CMP-001 5.5) wherever they are.
- **Human rights.** No forced or child labor in any entity or supplier (SIM-CMP-001 5.2). Procurement and Facilities apply extra checks to security, cleaning and construction suppliers in Pakistan.
- **Environmental law and reporting:** Legal tracks national requirements (for example, the EU and UK WEEE rules and local energy-performance rules for leased premises).

2.7 Government Inquiries, Raids and Inspections

SIM-CMP-001 6.6 and SIM-FAC-001 2.8 apply: **call Legal immediately** (and within 1 hour), do not obstruct, do not consent beyond the warrant, and do not destroy anything. Local reception teams receive this guidance:

Country	Authorities that may arrive	Notes
United States	FBI, DOJ, SEC, FTC, IRS, state attorneys general, OSHA/Cal-OSHA, EEOC	Warrant or subpoena; Legal and outside counsel
Germany	Public prosecutor and police, tax investigators, Federal Cartel Office, data protection authority, labor inspectorate	Search powers are broad; employees may remain silent; Legal appoints a German lawyer
France	Competition Authority, DGCCRF, tax authority, URSSAF, labor inspector, CNIL	Competition-authority dawn raids may seize digital data; Legal and French counsel attend
United Kingdom	Serious Fraud Office, CMA, HMRC, ICO, HSE, Home Office immigration enforcement	Legal and UK counsel attend; right-to-work records must be ready
Australia	AFP, ASIC, ACCC, ATO, Fair Work Ombudsman, SafeWork NSW, OAIC	Notices to produce; Legal and Australian counsel
Pakistan	Federal Investigation Agency, National Accountability Bureau, FBR, SECP, Labour Department, PTA	Legal and Pakistani counsel attend; employees are not to sign statements without legal advice

Employees asked by police or officials about the Company outside such visits refer them to Legal. Nothing here restricts a person's right to report wrongdoing to authorities (SIM-CMP-001 2.5).

2.8 Records, Legal Holds and Language

- The Company retention schedule (SIM-CMP-001 4.4) is the baseline: financial and tax records 7 years; email 3 years. **Local law may require longer or shorter periods** (for example, French and German accounting rules, UK 6-year limitation, short GDPR retention for CCTV and candidate data). Legal publishes a country schedule on the intranet; the shorter period applies for personal data unless a longer period is legally required or a legal hold applies.
 - **Legal holds** apply across all entities and systems and override local deletion rules (but the Privacy Lead is consulted in the EU).
 - **Language.** Key policies, the Code of Ethics, privacy notices and employee-facing documents are provided in the local language where the law requires (French in France) and on request elsewhere. Contracts with customers and vendors are in English unless local law requires otherwise.
-

Part 3 – Finance, Tax and Intercompany (Finance)

3.1 Entities, Accounting and Close

- Group financial statements are prepared under **U.S. GAAP** on a calendar year (SIM-FIN-001 2.1). Each subsidiary also keeps its **statutory books** under local law and reconciles them to the group ledger.
- The six entities use the group chart of accounts and ERP with a **local statutory layer**:

Entity	Local accounting framework (statutory)	Functional currency
Simtora Technologies, Inc.	U.S. GAAP	USD
Simtora Technologies (Pvt.) Limited	Pakistan accounting standards under the Companies Act 2017	PKR (functional currency may be USD if Finance and the auditors agree)
Simtora Technologies GmbH	German commercial code (HGB)	EUR
Simtora Technologies SAS	French GAAP (PCG)	EUR
Simtora Technologies Pty Ltd	Australian Accounting Standards	AUD
Simtora Technologies UK Limited	UK GAAP (FRS 102)	GBP

- **Close calendar.** Subsidiaries submit their trial balances and intercompany confirmations by **business day 5**; the group books lock on **business day 8** and the management package is issued on business day 10, as in SIM-FIN-001 9.1.
- Local entities follow SIM-FIN-001 for revenue recognition, capitalization, reconciliations and journal-entry controls. Local statutory differences (for example, German commercial-law accruals) are recorded in the local layer.
- **Fiscal year.** All entities use a **December 31** year-end. In Australia, the Company obtains the ATO's approval for a substituted accounting period so that it matches the group.

3.2 Currency, Banking and Treasury

- **Reporting currency** is the U.S. dollar. Transactions are recorded in the transaction currency and translated at the Finance **monthly rate** (published on the 1st business day) or the transaction-date rate for payments; month-end balances are revalued (SIM-FIN-001 2.5).

- **Hedging.** The Company does not hedge currency exposure without CFO approval. The CFO reviews exposures quarterly, especially the Pakistani rupee and the Australian dollar (SIM-FIN-001 6.5). Allowances set in USD are paid in local currency at the monthly rate, with a review when a currency moves by more than 10% in a year (SIM-HR-101 4.4).
- **Local bank accounts.** Each entity has a primary operating bank account in its country and (where useful) a USD or EUR account. Accounts are opened only with CFO and General Counsel approval; dual authorization applies for all payments (SIM-FIN-001 6.1 and 4.4). Bank signatories are listed in a register held by the Treasurer.
- **Pakistan.** Foreign-exchange transactions follow the State Bank of Pakistan rules: export proceeds for services are received through authorized banking channels and realized within the SBP deadlines; transfers abroad (dividends, intercompany payments, royalties) need the SBP/authorized-dealer documentation. Finance and the bank manage each transaction.
- **Funding.** The parent funds the subsidiaries primarily through **intercompany service fees** (3.4) paid monthly, so that cash is not trapped. Loans, guarantees and equity injections need CFO and CEO approval and Board approval where SIM-FIN-001 6.4 requires; no subsidiary borrows from third parties without that approval.
- **Cash pooling** is not used. Intercompany balances are settled within **30 days** of invoice.
- **Dividends and capital:** decided by the parent's CFO and CEO after tax, exchange-control and legal review.

3.3 Spend Authority and Signing in the Subsidiaries

- The approval levels in SIM-FIN-001 1.2 apply in USD equivalents in every country, without exceptions for local custom. Total committed value and the purchase-order, quote and RFP thresholds (SIM-PRC-001 1.2) are measured in USD at the monthly rate.
- **Country leaders** are **Department Heads for their center's budget** and approve up to US \$25,000 of budgeted spend, as other Department Heads do. They cannot approve above their authority and cannot split purchases.
- **Contract signing.** Only the CEO, CFO and General Counsel (and Department Heads for standard-form budgeted contracts up to US \$25,000) sign for the Company (SIM-FIN-001 1.2). A country leader signs **in their statutory capacity** only what these authorities approve; local law may require a statutory director's signature on certain documents

(for example, a German GmbH managing director signs the commercial register filings), and in that case the Company approval is obtained first.

- **Powers of attorney** and bank mandates are approved by the General Counsel and CFO and recorded (2.1).
- **Segregation of duties** applies in every entity (SIM-FIN-001 1.3). In the small centers (Berlin, Paris, Sydney, London), Finance in San Francisco performs the second approval, reconciliation and payment release where local staffing would not allow independence.

3.4 Intercompany Arrangements, Transfer Pricing and IP Ownership

- **Intercompany agreements.** Each subsidiary has a written **contract R&D and services agreement** with Simtora Technologies, Inc. The subsidiary performs R&D and support services; **the parent owns all resulting intellectual property**, funds the work, and bears the entrepreneurial risk.
- **Pricing.** Services are charged at **cost plus a mark-up** set each year by the Tax Manager on the basis of a benchmarking study (currently in the range of 8% to 12% of costs), applied consistently with the arm's-length principle. Costs include salary, benefits, premises, equipment depreciation, shared services and an allocation of management costs.
- **Invoicing.** Monthly intercompany invoices, issued by the subsidiary within 5 business days of month-end; settlement within 30 days; true-ups at year-end.
- **Documentation.** Tax prepares transfer-pricing documentation where each country requires it (Master File and Local File or equivalents) and keeps support for every intercompany charge. Penalty protection depends on contemporaneous documentation. Related forms in the U.S. (such as Forms 5471 and 5472) are filed on time (SIM-FIN-001 10.4).
- **Withholding taxes and treaties.** Tax determines withholding on cross-border payments and uses treaty benefits where available (Pakistan, Germany, France, Australia, the UK and the U.S. have treaties with one another or the U.S.), and files local tax-residency certificates.
- **Permanent establishment (PE) risk.** No employee in a subsidiary may **habitually conclude contracts or play the principal role in concluding contracts** on behalf of the parent or another entity, and no employee of the parent may work in a subsidiary's

country without the approvals in SIM-HR-002 1.9. The Tax Manager reviews roles, travel and remote work for PE risk each year.

- **IP.** Employee contracts assign IP to the parent (SIM-HR-002 1.13). In Germany, France and the UK, statutory employee-inventor compensation rules are applied and budgeted by Finance (SIM-HR-102 8.3, SIM-HR-103 8.3, SIM-HR-105 8.3).
- **Pillar Two and other international rules.** Simtora's revenue is below the thresholds for the OECD minimum tax; Tax confirms the position annually.

3.5 Indirect Taxes and Invoicing

Country	Tax	Key rules for Finance and employees
United States	Sales and use tax	SIM-FIN-001 10.2
Germany	VAT (<i>Umsatzsteuer</i>)	Valid VAT invoice required for input VAT recovery. E-invoicing: since January 1, 2025 every business must be able to receive structured e-invoices; issuing e-invoices becomes mandatory from January 1, 2027 for businesses above the legal turnover threshold and from January 1, 2028 for all.
France	VAT (<i>TVA</i>)	E-invoicing and e-reporting: from September 1, 2026 every business must be able to receive e-invoices through a certified platform; issuing e-invoices is expected to be mandatory for small and medium enterprises from September 1, 2027 (Tax confirms the category and date).
United Kingdom	VAT	Making Tax Digital for VAT; valid VAT invoices
Australia	GST	Valid tax invoice for purchases over AUD 82.50 (GST-inclusive); Business Activity Statements; Peppol e-invoicing is supported
Pakistan	Federal sales tax on goods; Punjab provincial sales tax on services (administered by the Punjab Revenue Authority); income tax withholding on payments	Tax invoices with NTN/STRN and withholding certificates; exports of services follow the special export regimes Tax confirms each year

- Cross-border services between entities and to customers are subject to reverse-charge or place-of-supply rules; Tax reviews new contract structures before signing.
- **Customer invoicing:** `billing@simtora.example` issues invoices from the contracting entity, in the contract currency, with the required tax identifiers and statements (SIM-FIN-001 3.1).
- **Vendor invoices** must meet local requirements to be paid and to recover VAT/GST (SIM-FIN-001 4.3). Where a vendor invoice lacks required elements, AP returns it.
- A **new tax registration** (VAT, GST, payroll, state) is requested from Tax at least **30 days** before the first transaction, as for U.S. states (SIM-FIN-001 10.1).

3.6 Payroll and Employer Taxes

SIM-FIN-001 Part 5 (payroll governance, calendar, changes and corrections) applies with these adaptations.

Item	Rule
Providers	In-house payroll in Lahore (supervised by Finance in San Francisco); external payroll providers in Germany, France, Australia and the UK; U.S. payroll as in SIM-FIN-001. The International HR Lead and the Payroll Manager oversee them.
Pay dates	Pakistan: last working day of the month (no later than the 7th); Germany: last working day of the month; France: last working day of the month; Australia: fortnightly on Friday; UK: last working day of the month; U.S.: bi-weekly Friday (SIM-HR-002 1.7)
Cut-offs and review	Provider cut-off 5 business days before pay date; Payroll Manager review and Controller approval; CFO release for the entity's payroll funding; funding in local currency at least 3 business days before pay date
Variance flags	Net pay change over 10% or US \$1,000 equivalent; total payroll over 5% (SIM-FIN-001 5.2)
Segregation	HR enters changes; Payroll processes; Finance approves; a second person approves any bank-detail change after a call-back (SIM-FIN-001 5.3)

3.7 Expenses, Cards and Travel Finance

- SIM-FIN-001 4.6 to 4.9 apply. **Card limits** are in USD equivalents. Cards for employees outside the U.S. are issued by the entity's bank or through the corporate card program where available; local rules on foreign-exchange fees apply.
- **Expense reports** are submitted in the currency of the receipt and converted at the transaction-date rate. VAT/GST is captured where recoverable; **receipts must meet local tax-invoice rules**.
- **Per diem and lodging** for U.S. trips use GSA rates; for trips outside the U.S. use U.S. State Department foreign rates (SIM-HR-001 8.1). The nightly lodging cap is the destination rate plus 25% for high-cost cities.
- **Travel advances** (SIM-FIN-001 4.9) may be paid in local currency to employees in Pakistan, who often need to prepay visas and tickets; settlement within 10 days of return.
- **Gifts and hospitality** evidence (recipient, organization, purpose) is required in every country (SIM-FIN-001 4.10).
- **Petty cash**: each center keeps a petty cash float of no more than the equivalent of US \$500, with the same controls (SIM-FIN-001 4.9).

3.8 Statutory Filings and Audits

- **Corporate Secretary and Controller** keep a **compliance calendar** for each entity that lists corporate filings, tax returns, payroll filings, statutory accounts, audits, license renewals and registrations. Country leaders confirm quarterly that their entity is up to date.
- **Statutory audits and filings** are performed as local law requires (for example, a private limited company in Pakistan must have its accounts audited; thresholds for audit exemptions apply in Germany, France, the UK and Australia). The group's external auditors coordinate with local auditors (SIM-FIN-001 9.5).
- **Late filings**, notices from authorities or any penalty are reported to the Controller and General Counsel within **2 business days**.
- **Tax audits** follow SIM-FIN-001 10.5 with local counsel.

- **Records:** accounting records are kept for the longer of 7 years and the local requirement (SIM-FIN-001 11.1). Electronic archives meet the local rules on audit trails.

3.9 R&D Tax Incentives and Grants

Several of the countries offer incentives for R&D (for example, France's research tax credit, the UK's R&D tax relief, Germany's R&D allowance, Australia's R&D Tax Incentive, and Pakistan's incentives for software exporters). The Company claims only what it is legally entitled to:

- **Tax approves** every claim and prepares it with the Controller. The General Counsel reviews any claim above US \$100,000 a year.
- **Evidence.** Engineers and managers record **time and costs by project** in the project system so that eligible activity can be identified and supported; this applies in all centers.
- **Truthfulness.** Claims describe work accurately and are signed off by the technical lead and a finance reviewer. A misstatement can lead to penalties; errors are reported to the Controller immediately.
- **Government grants** are treated as government benefits under SIM-CMP-001 and follow the grant rules; any grant over US \$10,000 needs CFO and General Counsel approval.

3.10 Insurance

SIM-FIN-001 6.6 sets the global program. Local requirements are added:

Country	Statutory or required cover
United States	Workers' compensation; state disability; cyber/E&O as SIM-FIN-001
Pakistan	Workers' compensation; social-security and EOBI contributions; group health and life (SIM-HR-101 6.1)
Germany	Statutory accident insurance (VBG); group accident
France	Work-accident and occupational-disease contributions; mandatory supplementary health and provident cover
Australia	Workers compensation (icare); professional indemnity as the group requires
United Kingdom	Employers' liability insurance of at least GBP 5 million (certificate displayed); group health and life

Each subsidiary is covered by the group's D&O, E&O/cyber, crime and general liability program with local fronting policies where required. Claims and incidents are reported to Finance within **24 hours** of Severity 1 events and as soon as practicable otherwise.

Part 4 – Procurement (Procurement)

4.1 Who Contracts and Local Vendor Onboarding

- **Who contracts.** The entity that receives the goods or services is the contracting party for local purchases, unless Procurement agrees a **group agreement** signed by the parent. Group agreements are used for global software, cloud, insurance and travel (SIM-PRC-001 3.9).
- **Approval and bands.** Method bands, quotes, RFP, Panel review and approvals (SIM-PRC-001 1.2, 1.3 and 3.1) apply in **USD equivalents** to every entity. Country leaders have no extra authority (3.3). Aggregation is by supplier across all entities.
- **Vendor onboarding** (SIM-PRC-001 4.1 and 4.2) collects, in addition to the standard documents, local identity and tax data:

Country	Vendor identification and tax data
United States	W-9; EIN
Pakistan	NTN and STRN/PRA registration; active-taxpayer status; bank account title matching; CNIC for sole proprietors
Germany	VAT ID (USt-IdNr.), tax number, commercial register extract, IBAN/BIC
France	SIREN/SIRET, VAT number (TVA), <i>Kbis</i> extract, IBAN/BIC, URSSAF compliance certificate (<i>attestation de vigilance</i>) for services over EUR 5,000
Australia	ABN (and GST registration status), bank BSB and account
United Kingdom	Companies House number, VAT number, sort code and account number
Foreign vendors	W-8BEN-E (when paid by U.S. entities), tax residency certificate, sanctions screening

- **Bank-detail verification** by independent call-back applies to all new or changed details (SIM-FIN-001 4.2).
- **Sanctions and restricted-party screening** is mandatory for all vendors, with enhanced checks for vendors in Pakistan and for any with state ownership (SIM-PRC-001 4.2 and 4.3).
- **French posted-worker and labor-law checks:** in France, the *attestation de vigilance* (proof the supplier pays social contributions) is required before the first payment and renewed every six months (SIM-PRC-001 4.2).

4.2 Payment Terms, Late-Payment Laws and Currency

- The standard payment term is **net 30 days** (SIM-PRC-001 5.2 and SIM-FIN-001 4.3). Longer terms are negotiated only if the law allows.
- **Statutory limits and penalties:**

Country	Rule
France	Payment term must not exceed 60 days from invoice (or 45 days end of month); fixed recovery indemnity of EUR 40 and late-payment interest (at least three times the legal rate) apply to late invoices
Germany	Default due date 30 days after receipt of invoice; interest for late payment as the Civil Code provides
United Kingdom	Late Payment of Commercial Debts (Interest) Act 1998: statutory interest at 8% above the Bank of England base rate and fixed compensation; prompt-payment reporting for large companies
Australia	No general statutory limit, but fast payment to small businesses is expected; the Company pays small-business vendors within 30 days
Pakistan	Contractual terms; withholding tax is deducted at payment
United States	State prompt-payment laws apply to some contracts

- **Currency.** Contracts are in the currency of the vendor's country or USD. Procurement avoids long fixed-price commitments in volatile currencies without CFO review (SIM-FIN-001 6.5).
- **Withholding tax** on payments to foreign vendors is calculated by Tax before payment; AP holds payment until the vendor provides the tax forms.
- **Prepayments** are limited as in SIM-PRC-001 7.3; in Pakistan, advance payments to local vendors (for example, for office fit-out or equipment) follow the same 10% holdback rule and are approved by the Controller above US \$10,000.

4.3 Governing Law, Local Mandatory Law and Dispute Resolution

- Group templates use **Delaware or California law**. Local vendors may require **local law** for purchases performed entirely in one country; Legal approves the choice case by case. Local mandatory rules apply regardless of the contract (SIM-PRC-001 5.1).
- Points Legal checks in each country:

Country	Points
Germany	Review of standard business terms (<i>AGB</i>) under the Civil Code; liability caps
France	Mandatory rules (<i>lois de police</i>), abusive clause rules between businesses, sudden termination of established commercial relationships
United Kingdom	Unfair Contract Terms Act 1977 (reasonableness of exclusion clauses)
Australia	Australian Consumer Law unfair contract term provisions for small-business contracts; the Australian Privacy Principles
Pakistan	Contract Act 1872; stamp duty on certain agreements; enforceability of arbitration awards (Pakistan is a party to the New York Convention)

- **Dispute resolution:** escalation, then mediation, then arbitration (ICC or LCIA/SIAC as the contract chooses) or the courts. Legal approves any change.

4.4 Data Protection, Contractors and Supply Chain

- **Vendor data protection terms.** Every vendor that handles personal data signs a DPA with the transfer mechanism that applies (EU SCCs, UK Addendum/IDTA, Australia APP 8 clauses) and lists sub-processors and data locations (SIM-PRC-001 5.2; 2.3 above). Vendors in the EU and UK must notify breaches within 24 hours where critical, otherwise 72 hours.
- **Contractors and agencies.** HR and Legal classify every contractor before engagement (SIM-PRC-001 6.3; SIM-HR-002 1.3), including **IR35 status** (UK), *Scheinselbständigkeit* risk (Germany), requalification risk (France), sham-contracting rules (Australia), and employment status in Pakistan. Staffing agencies must be licensed in their country and pay their staff in accordance with law (Germany's agency-work law, France's temporary-work rules, UK Agency Workers Regulations).
- **Supply chain.** Suppliers sign the Supplier and Partner Standards (SIM-CMP-001 5.5). For local services such as security guards, cleaners and construction, Procurement and Facilities check licensing, wage compliance, social-security payments and safety

training before award and at each renewal. In Pakistan, security-guard agencies must hold the required provincial license and insurance.

- **Sustainability.** Preferred vendors in each country include local small and diverse businesses where price and quality are comparable (SIM-PRC-001 2.4).

4.5 Imports, Customs and Hardware

- **Hardware** for the centers is bought through approved channels and shipped to the center or staging room (SIM-FAC-001 5.2). Imports use **licensed customs brokers**, with correct classification, value and origin (SIM-PRC-001 6.2), and sanctions checks of the shipper and consignee.
 - **Pakistan:** import duties, taxes and clearance are included in the purchase budget; exemptions are not assumed. Equipment re-exported or returned follows customs rules.
 - **Intercompany transfers of equipment** are documented as such for customs and transfer pricing.
 - **Lead times** for international hardware (usually 4 to 8 weeks) are included in planning (SIM-PRC-001 1.4).
 - **Customs and e-waste:** returns and disposals follow SIM-FAC-001 5.5 and the WEEE rules in the EU and UK.
-

Part 5 – Facilities, Safety and Security (Facilities)

5.1 Sites, Site Leads and Local Safety Leads

Site	Type under SIM-FAC-001 1.2	Site Lead	Local Safety Lead	Approx. people
San Francisco (HQ)	Hub	Head of Facilities (delegating to the HQ Site Lead)	HQ Safety Lead	55
Lahore	R&D center (hub-level)	Managing Director, Lahore	Lahore Safety and Security Lead	45
Berlin	R&D center (regional)	Managing Director, Berlin	Berlin Safety Officer (working with an external safety specialist)	18
London	R&D center (regional)	Director, London	London Safety Lead	18
Paris	R&D center (regional)	Président, Paris	Paris Safety Lead (with the CSE)	15
Sydney	R&D center (regional)	Director, Sydney	Sydney WHS Lead	14

- Each Site Lead performs the **monthly walk-through** and the Safety and Security Lead performs the **semi-annual** inspection (SIM-FAC-001 8.2); a local external provider may do it in small centers.
- Facilities & Workplace Committee (SIM-FAC-001 1.1) includes one representative of the international sites, rotating annually.

5.2 Local Safety Law and Emergency Numbers

Country	Main safety law	Emergency numbers	Reporting of serious incidents
United States	OSHA; Cal-OSHA in California (IIPP, Workplace Violence Prevention Plan)		

Local counsel and the local Safety Lead keep the details current. Where the local law is stricter than SIM-FAC-001, the local law applies; where SIM-FAC-001 is stricter, SIM-FAC-001 applies. The **same-day internal injury report** (SIM-FAC-001 6.1; SIM-HR-001 4.3) applies everywhere.

5.3 Emergency Planning, First Aid and Drills

- **Emergency action plans** (SIM-FAC-001 6.2) are written for each site in the local language and English, with the local emergency numbers, assembly points and warden list. Plans are tested at least annually; sites with more than 100 people or several floors twice a year. Where local law sets shorter intervals (for example, evacuation exercises in some French premises), those apply.
- **Wardens and first aiders.** One warden per 20 occupants per floor; at least two first aiders per office and one per 50 on site (SIM-FAC-001 6.2, 6.3). In Germany, the number and training follow the accident insurer's rules (first aiders and fire-safety assistants); in France, trained *sauveteurs secouristes du travail* are encouraged; in Australia, first aid and warden training follow the WHS guidance; in the UK, a first-aid needs assessment decides the number.
- **AEDs** are placed within about 3 minutes' walk of any workstation in each center, unless local law requires more (SIM-FAC-001 6.3).
- **Language.** Safety signage and instructions are in the local language (French in France is required; German in Germany).
- **Remote workers** receive local emergency numbers and guidance (SIM-FAC-001 6.8).
- **Business continuity:** each site has a continuity plan; loss of a site is a Tier 1 scenario in SIM-IT-001 7.3. Staff at other sites can cover Support and SRE duties for a closed site.

5.4 Workplace Environment

Topic	Rule
Temperature	The Company standard of 70–74°F (21–23°C) (SIM-FAC-001 4.3) applies. Local law sets minimums and maximums (for example, Germany's technical rules for offices; UK minimum temperature guidance; France's heat-wave measures); the more protective applies.
Heat and cooling	Lahore (April–September): cooling must work and be tested before April 1; the transport schedule adapts to extreme heat. Sydney: heat and bushfire-smoke measures. Berlin, Paris and London: heat-wave plans in summer.
Air quality	Lahore's winter smog (October–January): air purifiers; remote work available on request when the air quality index is above 300 or the Punjab government declares a smog emergency (SIM-HR-101 10.3). Sydney: remote work on days of hazardous bushfire smoke. San Francisco: wildfire smoke (5.8).
Power	Lahore: UPS and generator sized for at least 8 hours of core load; fuel stocked; quarterly tests (SIM-FAC-001 4.2 requires at least 30 minutes of UPS). Other sites: UPS for core network equipment as in SIM-FAC-001.
Ergonomics	Workstation assessments follow local rules (the UK Display Screen Equipment Regulations, German workplace rules and eye-test offers, French telework ergonomics) (SIM-FAC-001 5.4).
Smoking	Smoke- and vape-free premises and a distance from doors as local law requires (SIM-FAC-001 6.1).
Accessibility	Accessibility follows local law (for example, UK Equality Act duties, Australian Disability Discrimination Act, German accessibility rules for workplaces, French accessibility requirements for premises open to the public); Facilities consults users (SIM-FAC-001 3.3).
Religious and wellness rooms	Prayer or quiet rooms at every center (Lahore: separate rooms), lactation rooms that meet SIM-FAC-001 3.4, and quiet rooms.

5.5 Security, CCTV, Visitors and Badges

SIM-FAC-001 Part 2 applies. Local privacy and labor law adjusts the details:

Topic	Standard (SIM-FAC-001)	Local adjustment
CCTV retention	30 days; no audio; none in private spaces (2.5)	Germany: 72 hours unless an incident requires longer; works council agreement (if any). France: 30 days maximum; CSE consulted; clear signs. United Kingdom: 30 days; signs; ICO guidance. Australia (NSW): 30 days; 14 days' notice to employees; signs. Pakistan: 30 days. U.S.: 30 days; California notice rules.
CCTV viewers	Safety and Security Lead, Head of Facilities, CISO (2.5)	Same; in Germany and France, access is also described in the works agreement or notice
Visitor logs	Kept 12 months (2.3)	Germany and France: 3 months; United Kingdom: 6 months; others: 12 months, unless a longer period is needed for an incident or a legal hold
Visitor data	No ID copies; no date of birth (2.3)	Same everywhere; EU privacy notice at reception
Badges	Issued on day 1; lost badge deactivated quickly; no pay deductions (2.2)	Biometric access is not used in the EU or the UK; elsewhere only with the approvals in SIM-FAC-001 2.2
Security staff	Guards and reception as in 2.7	Pakistan: guards come from a licensed agency, are vetted, trained and supervised; armed guards only if the Safety and Security Lead and CISO approve; Germany/France/UK/Australia: unarmed security staff licensed as local law requires
Lone working and after-		

hours	Check-in between 8 p.m. and 6 a.m. (2.6)	Pakistan: Company-arranged transport home for anyone leaving after 8 p.m. (SIM-HR-101 6.3, 8.1); Berlin/Paris: after-hours work needs notice to HR because of rest-period rules
Government visits	Call Legal immediately (2.8)	See 2.7 above

5.6 Travel Risk Management

- **Risk levels.** The Head of Facilities and the CISO, with an external provider's advice, rate destinations **Low, Medium, High or Extreme**. Travel to **Extreme** destinations (and any comprehensively sanctioned country) is prohibited. **High** destinations need the Security team's approval, a pre-trip briefing, approved transport and hotels, loaner devices (1.5), and daily check-ins.
- **Traveling to Pakistan.** Lahore is rated by the security provider before each trip and its rating is reviewed quarterly. Visitors use Company-arranged transport and hotels, share their itinerary, and follow the Site Lead's briefing. Travelers must check their own government's travel advice. Employees may decline travel they believe unsafe without penalty (SIM-HR-001 8.1).
- **Traveling from Pakistan** (and other countries) to the U.S., UK, EU or Australia: visa decisions can take 8 to 12 weeks or longer, so trips are planned **at least 90 days ahead**, with HR and the travel team supporting visa letters. The Company does not penalize delays caused by visa processing.
- **Duty of care.** Travel is booked through the Company travel platform so that the Company can find and assist travelers; emergency assistance and medical evacuation cover are included (SIM-HR-001 8.1).
- **Incidents abroad** are reported to the Safety and Security Lead and HR at once.

5.7 Leases, Landlords and Disposal

- **Leases and approvals.** The **Board approves any lease or sale of real property** in any country; the Controller is told before signing (ASC 842); Legal and local counsel review; no personal guarantees without Board approval (SIM-FAC-001 7.1; SIM-FIN-001 2.6).

- **Local points counsel checks:**

Country	Points
France	Commercial lease (<i>bail commercial</i> , typically 3-6-9 years) with tenant break options at 3-year intervals and security-of-tenure rights; indexation clauses
Germany	Written form for leases over one year; service-charge (<i>Nebenkosten</i>) allocation; restoration obligations
United Kingdom	Security of tenure under the Landlord and Tenant Act 1954 (contracted out or not), repairing obligations, break clauses, dilapidations
Australia	NSW commercial lease rules; make-good clauses; rent reviews; outgoings
Pakistan	Registration of leases, stamp duty, advance rent and security deposit; landlord's obligations on utilities and safety
United States	As SIM-FAC-001 7.1; California and San Francisco rules

- **Flexibility.** Because of the hybrid model, leases favor flexible terms, break options and serviced space in Berlin, London, Paris and Sydney. Renewal decisions are made at least 9 months before the notice deadline (SIM-FAC-001 7.1).
- **Disposal.** Disposal of assets follows SIM-FAC-001 5.5 and SIM-FIN-001 7.3 with certified recyclers in each country; EU and UK WEEE rules apply; certificates are kept 7 years.

5.8 San Francisco Headquarters Specifics

- **Earthquakes.** The HQ emergency plan covers earthquakes: "drop, cover and hold on", structural checks, emergency supplies (water, first aid, flashlights), shelter-in-place and assembly points, and a post-event assessment before re-entry. Wardens receive earthquake training; anchoring of heavy furniture and equipment is checked at each inspection (SIM-FAC-001 6.5).
- **Wildfire smoke.** When the air quality index is hazardous, the HQ Site Lead and the Chief People Officer decide on remote working by 6:00 a.m.; air filtration and masks

are available; Cal-OSHA's wildfire-smoke rules are followed for any outdoor work.

- **California requirements.** A written **Workplace Violence Prevention Plan** and **Injury and Illness Prevention Program** are kept by the Safety and Security Lead with HR (SIM-HR-002 2.2).
- **San Francisco rules.** Compliance with the city's accessibility, commuter-benefits and business registration requirements; the HQ has staffed reception and the full set of controls in SIM-FAC-001.

5.9 Site Specifics: Lahore, Berlin, Paris, Sydney, London

Site	Specific measures
Lahore	Backup power (8 hours core load); two ISPs with failover; guards from a licensed agency; Company transport after 8 p.m.; air purifiers in winter; separate prayer rooms; flood and monsoon plan; Ramadan arrangements (SIM-HR-101 3.5); evacuation plan reviewed with Rescue 1122 guidance; PTA registrations
Berlin	Works council or employee consultation on safety rules; fire-safety assistants; German-language signage and instructions; Sunday-work limits applied to maintenance schedules; Betriebsarzt (occupational physician) engaged
Paris	DUERP kept up to date; French-language signage and instructions; CSE consulted on safety and CCTV; <i>sauveteurs secouristes du travail</i> ; transport-strike plan
Sydney	WHS notifiable-incident process; bushfire smoke, storm and heat plan; first aid and wardens trained to Australian standards; 14-day notice for surveillance; acknowledgment of Country in the reception area
London	RIDDOR process; Fire Safety Order risk assessment by the responsible person; employers' liability certificate displayed; DSE assessments; transport-disruption plan

Part 6 – Administration of This Supplement

6.1 Responsibilities

- **Annual review (January).** The General Counsel leads a review with the CFO, CISO, Head of Procurement, Head of Facilities and CPO, using local counsel's updates. The review covers new laws, new countries or regions, and incidents. Changes need CEO approval.
- **Mid-year changes.** A material change in law is handled within **30 days** by an interim notice from the General Counsel, followed by a formal revision.
- **Country certification.** Each country leader certifies annually, with the Compliance Officer, that the center complies with this Supplement and local law and lists exceptions. Results go to the Compliance Committee and the Audit Committee (SIM-CMP-001 6.9).
- **Reporting.** Quarterly International Review (Company Overview, 10.3) covers legal, tax, privacy, safety and security matters in each center.

6.2 Exceptions

Exceptions to this Supplement follow SIM-CMP-001 6.7 and the exception processes of each manual: written request, risk assessment, approval by the General Counsel (and CFO, CISO, Head of Procurement or Head of Facilities as relevant), maximum **12 months**. No exception may breach local law, sanctions or export-control rules, or the non-waivable standards in SIM-CMP-001 6.7.

6.3 Approval Matrix

Decision	Initiates	Approves	Informed
New country, new entity or new office	Executive Team member	CEO and Board (General Counsel, CFO, CPO review)	Audit Committee

6.4 Training

- All staff complete the standard Compliance and IT training in **30 days** of hire (SIM-CMP-001 6.2) in English, with local-language versions where required.
- Staff who work across borders (managers of international teams, Sales, Finance, HR, IT and Engineering leads) complete a **short module on this Supplement** within 60 days of role start: data location and access, export controls, anti-bribery by country, working across time zones, and the escalation paths.
- Country leaders and their deputies are briefed by the General Counsel on directors' duties at appointment and annually.

Appendices

Appendix A – Country Quick Reference

Item	United States (HQ)	Pakistan	Germany	France	Australia
City / entity	San Francisco / Simtora Technologies, Inc.	Lahore / Simtora Technologies (Pvt.) Limited	Berlin / Simtora Technologies GmbH	Paris / Simtora Technologies SAS	Sydney / Simtora Technologies Pty Ltd
Time zone	Pacific	UTC+5	CET / CEST	CET / CEST	AEST / ACDT
Currency	USD	PKR	EUR	EUR	AUD
Emergency numbers	911	15, 1122	112, 110	15, 17, 18, 112	000
Privacy law					

Appendix B – Changes This Supplement Makes to the Six Manuals

This table lists where the six manuals' text yields to this Supplement. Each manual also now carries a short "Locations outside the United States" statement in its introduction pointing here.

Manual and section	Original text (summary)	Position outside the U.S.
HR 1.2, 6.1–6.4, 6.9, 9.1–9.4	U.S. employment concepts	Replaced by the Country HR Manuals (SIM-HR-002 1.2)
IT 2.5	Restricted data hosted in U.S. regions unless contract or review permits	Customer-selected region applies (1.1)
IT 4.6	No work outside the U.S. without approval	Work in the country of employment is allowed; work from other countries needs approval under SIM-HR-002 1.9
IT 4.8	Monitoring notice	Local notice and consultation rules apply (1.4)
Compliance 3.3, 3.4	FCPA and the UK Bribery Act mentioned	Country laws in 2.2 apply
Compliance 4.1	Privacy program (U.S./GDPR/UK GDPR)	Country regimes and operating rules in 2.3
Compliance 2.x	Speaking up	Local clocks in 2.4 (7 days in Germany, 7 working days in France)
